## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

<b>1. Description of item production and importer</b>	
<b>Information about the product:</b>  trade name:  <b>DC-4123</b>	<b>Importer:</b> Adhesive Tape Products, Ltd. 11260 N.W. 91 Street Miami, FL 33178 Tel.:(305) 887-8881
<b>2. Composition / information about components</b>	
<b>2.1 Chemical characteristics:</b> acrylic adhesive siliconised paper, brown pvc-film, white <b>2.2 Dangerous contents:</b> none according to our current knowledge	
<b>3. Possible dangers</b>	
<b>3.1 Description of the kind of danger:</b> <small>(text of the references of danger, R-sentences)</small>  none  <b>3.2 Risk to human beings and environment:</b>  none	
<b>4. Recommendations for first medical aid</b>	
<b>General information:</b>  <b>After inhalation:</b>  <b>After contact with the skin:</b>  <b>After contact wit the eyes:</b>  <b>After having swallowed up:</b>  <b>Special information for the doctor:</b>	none  none  none  none  none  none

## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

### 5. Recommendation for fire fighting

#### 5.1 Suitable fire extinguishing media:

all types

**fire extinguishing media which are not suitable for safety**

#### reasons:

none

#### 5.3 Special danger by the material itself and from combustion

#### products:

PVC-films develop gaseous HCl at flame temperature

#### 5.4 Special protecting equipment:

none

#### 5.5 Additional information:

PVC-films develop gaseous HCl at flame temperature

### 6. Recommendations in case of unintentional escape

#### 6.1 Recommendations in respect of persons:

none

#### 6.2 Recommendations regarding environment:

none

#### 6.3 Recommendation for cleaning:

none

#### 6.4 Additional information:

none

## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

### 7. Storage and use

#### 7.1 Use:

Information for use without danger:

none

Information regarding fire prevention and explosion:

none

#### 7.2 Storage:

Requirements to storage places and storage containers:

none

Further information regarding storage conditions:

none

### 8. Limitation of exposition and personal protective equipment

#### 8.1 Supplementary information regarding construction of technical plants:

none

#### 8.2 Contents regarding working place and threshold values that have to be supervised:

n.a.

#### 8.3 Personal protective equipment:

Breathing protection:

Hand protection:

not necessary

Eye protection:

Body protection:

Hygiene recommendatin:

as usual regarding working place

## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

### 9. Physical and chemical properties

#### 9.1 Phenotype:

Appearance: solid

colour: white

Smell : none

#### 9.2 Data regarding security:

pH-value:

not applicable

change of condition

boiling point:

not applicable

melting or fusing point::

not applicable

flash point:

not applicable

flammability on solid bases:

not applicable

flammability of gases:

not applicable

flammable temperature:

not applicable

spontaneous ignition of the solid:

not applicable

spontaneous ignition of the gas:

not applicable.

properties assisting inflammation:

not applicable

danger of explosion:

not applicable

limits of explosion:

not applicable

consistency/density:

not applicable

solubility

water solubility/fat solubility:

not applicable

viscosity:

not applicable

#### 9.3 Further information:

none

## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

<b>10. Stability and reactivity</b>	
Conditions to be avoided:	not applicable
Substances to avoid:	not applicable
Dangerous decomposition of products:	none in case of appropriate use
<b>11. Information regarding toxicology</b>	
<b>11.1 Toxic tests:</b>	
acute toxicology:	
classification limit LD <sub>50</sub> /LC <sub>50</sub> -value	
oral:	not determined
dermatologic:	not determined
inhalative:	not determined
irritating effects:	
to skin:	n.a.
to eyes:	n.a.
sensitizing effects:	
skin:	s.11.3
respiratory tract:	n.a.
experience from the practical use:	
experience classification:	n.a.
other experience:	n.a.
<b>11.3 General remarks:</b>	
Due to generally increasing allergic influences direct contact to the tacky surface should be avoided as far as possible, as specific reactions to human skin cannot be excluded.

## EC-Safety-Data-Sheet

according to 91 / 155 / EEC

<b>12. Information regarding ecology</b>
<b>12.1 Information regarding elimination (product life and decomposition):</b> not determined
<b>12.2 Environmental properties:</b> not applicable
<b>12.3 Eco-toxic reactions:</b> aquatic effects: generally speaking no danger to water (self classification)
<b>12.4 Additional ecologic informations:</b> none
<b>13. Information regarding recycling</b>
Recommendation : waste class similar to household waste, is to be recycled according to the local regulations
<b>14. Information regarding transportation</b>
Additional information: not classified as a dangerous product in respect to transportation regulations
<b>15. Prescription / instructions</b>
no dangerous product / composition in respect to the classification of risks EEC No: 594/91 dated 4.3.91 is stuck to, also No: 67/548 (very toxic materials).
<b>16. Other information</b>
All information given in this certificate is based on our current knowledge and experience; the figures and individual information do not describe any technical data of a product and do not constitute a warranty of properties as defined by technical specifications.
